Do i need a modchip for flatmii ?

No

Must i solder to install a flatmii ?

No,flatmii is very easy to install in a few plug&play steps

Must i modify my wii's software or use any kind of clip for flatmii ?

No

What PC OS & Resources flatmii requires ?

Windows XP/Vista and usb 2.0 Highspeed,USB 1.1 is not tested but you can experience some lag

Are drivemods compatible with flatmii ?

Yes,you can use both on the same wii

Which formats will flatmii play ?

Flatmii executes Wii/Gamecube ISOS,DL & Multi included

May i install flatmii if my wii dvd drive is broken or damaged?

Yes,flatmii allows **standalone** mode without wii dvd drive installed

Plays flatmii trimmed iso game discs ?

Yes , NOTE : it requires a 3.2 or minor firmware version

Flatmii runs foreign region games ?

Yes,select your wii's region on the software menu to force it

My games are requesting for a system upgrade,must i upgrade ?

You can select the **Updates blocker** option to avoid them if needed

I want to install a "non critical upgrade " but it's not possible (i.e. NFS Undercover) ,what i do ?

Close the PC software,restart it and open the iso after unselect the upgrades blocker option

Is flatmii GeckOS , Mplayer or other homebrew software compatible ?

Yes ,Open the ISO file before launch the software player/tool . NOTE : this kind of software requires homebrew capabilities

I got EJECT and TURN OFF black screen,what happens ?

Flatmii got frozen for some reason , firstly turn off/on your wii and/or close and reopen the PC application software if needed,,if the issue still happens turn off wii and unplug/plug the pc usb cable remember do not break the disc login process when a dvd optical game disc is being identified inside the drive .

May i fix my bricked wii using flatmii ?

Yes,Open your Fixer ISO or Updated game disc before the SavemeFree trick process, if it's a semibrick just run a game disc with higher menu system version update
